

Lake Sherwood Aquatic Bird Management Petition

This petition to the Michigan Department of Natural Resources (DNR), Wildlife Division represents my wishes per the checks below relative to the management the Canada Goose and/or Mute Swan population on Lake Sherwood. Lake Sherwood Association assures the Michigan DNR all lakefront landowners have been notified of the program, recognizes these signatures will be good for a period of five (5) years, and requires annual permit applications to each program.

Programs I support:

_____ I SUPPORT the Canada Geese **Nest and Egg Destruction** activity on Lake Sherwood and grant Lake Sherwood representatives access to my property to destroy nests and eggs located on my property.

_____ I SUPPORT the Canada Geese **Capture and Euthanasia** activity (commonly referred as "round-up") on Lake Sherwood. I understand these geese will be killed and may be processed for use as charitable food donations.

_____ I SUPPORT the Mute Swan **Nest and Egg Destruction** activity on Lake Sherwood and grant Lake Sherwood representatives access to my property to destroy nests located on my property.

_____ I SUPPORT a program removing overly aggressive Mute Swans that pose a danger to residents that will include lethal removal.

Check below only if you do NOT approve any of the programs above:

_____ I DO NOT SUPPORT any of the programs above.
